PROFILE

Motivated Behavioural Neuroscience student with interest in UX research/design, visual cognitive research, and mental health advocacy.

EXPERIENCE

UBC UX Lab - User Experience Researcher

Vancouver, BC

April 2019 - Current

- Ran user tests and interviews to identify issues and create solutions for users interacting with UBC online platforms
- Redesigned multiple online UBC platforms such as the Student Services Centre, newsletter, and academic calendar to improve usability

UBC Visual Cognition Lab - Copilot

Vancouver, BC

March 2019 - Current

- Ran visual interface experiments and analyzed data to investigate potential methods to improve visual search and display
- Tested visual search paradigm to study how visual search efficiency is affected by different image transformations

UBC Music Initiative - Community Executive

Vancouver, BC

September 2018 - Current

- Developed marketing tactics and contributed to logo and cover page design
- Design of monthly event layout and decoration based on specific theme
- Performed as a volunteer for outreach events at senior homes, hospitals, and charity events such as Relay for Life (Cancer Association)

Airbnb - Customer Service Representative

Winnipeg, MB

April 2018 - September 2018

- Identified needs of users, clarified information and researched issues in order to provide creative solutions and/or alternatives
- Developed soft skills to show empathy towards users to provide a positive user experience
- Assisted users navigating through Airbnb website and app
