

Jessica del Rosario

UX/UI Designer

I strive to create intuitive yet elegant design solutions for problems that will improve lives.

Experience

UBC Faculty of Applied Science UX/UI Design Intern

May 2020 - Present | Vancouver, BC

Currently building the design system for UBC APSC, while conducting UX research for and redesigning multiple websites as we undergo a rebranding. As the project leader for most of these sites, I have learned how to work with and manage cross-functional teams of developers and marketing coordinators to define guidelines for implementation.

Involvement

nwPlus UX/UI Designer

May 2020 - Present | Vancouver, BC

Currently the design lead for HealthX, a hackathon encouraging collaboration between students majoring in health sciences and computer science, to create products that will improve technology within medicine and research.

UBC Launch Pad UX/UI Designer

September 2019 - Present | Vancouver, BC

Collaboratively creating apps with an interdisciplinary team of developers, business strategists, and designers, while learning how to communicate my design decisions effectively. My role included conducting user research/testing, creating wireframes/prototypes, iterating upon feedback and establishing product branding.

UBC Student Communications UX Researcher

April 2019 - September 2019 | Vancouver, BC

I used mixed user testing methods and interviews to identify issues and create solutions for users interacting with UBC online platforms. In this experience I learned how to produce full case studies, research presentations, and analyze user data while reporting to designers for future improvements and changes.

Project Awards

Cmd-f 1st Place + Best Project Educating Young Girls on Finance

March 2020

MoneyBee: an Android mobile app that educates the youth on finance through mini-games. Within 24 hours, I worked with a team of designers and developers to create educational mini-games, prototypes, and a product presentation. This project was part of an all-female hackathon geared towards supporting women in the field of technology.

BizHacks 3rd place

February 2020

Blue Pocket: an Android app extension that brings Best Buy's 'Blue Shirt' service to their online shopping experience.

Experience

UBC Faculty of Applied Science UX/UI Design Intern

May 2020 - Present | Vancouver, BC

I am currently building a design system for UBC APSC's rebranding, while conducting UX research for and redesigning multiple websites. As the project leader for most of these sites, I have learned how to work with and manage cross-functional teams of developers and marketing coordinators to define guidelines and limitations for implementation.

UBC Launch Pad UX/UI Designer

September 2019 - Present | Vancouver, BC

Collaboratively creating apps with an interdisciplinary team of developers, business strategists, and designers, while learning how to communicate my design decisions effectively. My role included conducting user research/testing, creating wireframes/prototypes, iterating upon feedback and establishing product branding.

UBC Student Communications UX Researcher

April 2019 - September 2019 | Vancouver, BC

I used mixed user testing methods and interviews to identify issues and create solutions for users interacting with UBC online platforms. I also learned how to produce full case studies, research presentations, and analyze user data while reporting to designers for future improvements and changes.

Projects

Sprouts UX/UI Designer

January 2020 | nwHacks

Within 24 hours, I collaborated with a team of developers and designed an iOS app that helps users take care of their plants and reduce stress levels. I created high-fidelity designs, interactive prototypes, a product presentation, and conducted user testing.

MoneyBee UI Designer

March 2020 | cmd-f

I designed an Android mobile app to educate the youth on finance through mini-games. Within 24 hours, I worked with a team of designers and developers to design educational mini-games, branding, and a product presentation.

Awards

Cmd-f First Place + Scotiabank Sponsor Prize

March 2020

MoneyBee: best project providing financial education for young women aged 10-15.

BizHacks Third Place

February 2020

Blue Pocket: an Android app extension that brings Best Buy's 'Blue Shirt' service to their online shopping experience.
