

# Jessica del Rosario

## UX/UI Designer

I strive to create intuitive yet elegant design solutions for problems that will improve lives.

## Experience

### UBC Faculty of Applied Science UX/UI Design Intern

May 2020 - Present | Vancouver, BC

Currently building the design system for UBC APSC, while conducting UX research for and designing our online platform as we undergo a rebranding. As the project leader for most of our websites, I have learned how to work with and manage cross-functional teams of developers and marketing coordinators to define guidelines for implementation.

## Involvement

### nwPlus UX/UI Designer

May 2020 - September 2020 | Vancouver, BC

I was the design lead for HealthX, a hackathon encouraging collaboration between students majoring in health sciences and computer science, to create products that will improve technology within medicine and research.

### UBC Launch Pad UX/UI Designer

September 2019 - May 2020 | Vancouver, BC

Collaboratively created apps with an interdisciplinary team of developers, business strategists, and designers, while learning how to communicate my design decisions effectively. My role included conducting user research/testing, creating wireframes/prototypes, iterating upon feedback and establishing product branding.

### UBC Student Communications UX Researcher

April 2019 - September 2019 | Vancouver, BC

I used mixed user testing methods and interviews to identify issues and create solutions for users interacting with UBC online platforms. In this experience I learned how to produce full case studies, research presentations, and analyze user data while reporting to designers for future improvements and changes.

## Projects

### Mindset

September 2020

I collaborated with the CEO to design the app store previews for Mindset4Dementia, a product aimed towards making dementia care more accessible to everyone.

### Cmd-f 1st Place + Best Project Educating Young Women on Finance

March 2020

MoneyBee: Within 24 hours, I worked with a team of developers to create a mobile app that educates the youth on finance through mini-games. This project was part of an all-female hackathon geared towards supporting women in the field of technology.

### BizHacks 3rd place

February 2020

Blue Pocket: an Android app extension that brings Best Buy's 'Blue Shirt' service to their online shopping experience.

## Skills

### Design and Research

Wireframing & Prototyping  
Interaction Design  
Storyboarding  
Illustration & UI Graphics  
User Interviews  
Contextual Inquiry  
Persona/Scenario Development  
Usability Testing  
Data analysis

### Tools

Sketch  
InVision  
Figma  
Adobe XD  
After Effects  
Adobe Dimension  
Illustrator  
Procreate  
Blender (novice)

### Programming

HTML  
CSS  
Javascript

## Education

### University of British Columbia

September 2017 - Present

B.S. Behavioural Neuroscience

## Activities

### UBC Music Initiative Executive

September 2018 - December 2019

Enhanced the UMI website using UX design principles, and involvement in community outreach concerts.

### Visual Cognition Lab RA

May 2019 - August 2019

As a research assistant, I ran visual interface experiments and analyzed data to investigate potential methods to improve visual search and display.
